PRESS RELEASE

Energy Statistics, December 2023

22.02.2024

The Kosovo Agency of Statistics (KAS) has released the "Energy Statistics" for the month of December 2023 with data on the production and consumption of coal, the production and consumption of energy, the import and export of energy as well as the import and export of other energy sources.

More electricity available in December 2023 compared to December 2022

During the month of December 2023, the available gross electricity was 853.83 GWh, while the electricity consumption was 608.16 GWh or 12.69% more than in the same month of the previous year (December 2022).

The share of alternative electricity in the total consumption was 13.34%.

Coal production was about 7.21 thousand tons, or 1.45% less than in the same month of the previous year.

Overview of production, consumption and ratio of electricity in December 2023 to December 2022

MWH	12-2022	12-2023	XII 2023 / XII 2022 %
Gross production from power plants	585,541	584,761	-0.13%
Gross production from hydropower plants	48,974	43,203	-11.78%
Gross production from wind and solar	37,449	37,947	1.33%
Import	354,671	416,726	17.50%
Export	223,972	228,808	2.16%
Gross electricity available	**802,664**	**853,829**	**6.37%**
Household	354,199	396,633	11.98%
Commercial	117,736	134,811	14.50%
Industry	47,941	53,505	11.61%
Public lighting and other	1,051	4,414	320.06%
Consumers 220-110kv	8,945	9,119	1.95%
Mining	9,790	9,682	-1.10%
Electricity consumption	**539,662**	**608,164**	**12.69%**
